# MEMBER ORGANISATIONS

SCIENCE EUROPE'S  
MEMBERS

January  
**2022**

## Member Organisations

**Science Europe's 40 Member Organisations from 30 European countries are among the most important public research organisations funding and performing scientific research in Europe today. This document introduces our members and our membership criteria.**

Science Europe's Member Organisations are highly recognised nationally and internationally. Together, they contribute approximately €22.4 billion to research per year. They join forces in Science Europe to support the best conditions for research and researchers. Science Europe's initiatives and advocacy activities are based on the expertise and experience of our members. The Science Europe Office works closely with all members on a daily basis through mechanisms such as its Collaboration Groups, Task Forces, Policy Networks, and through

the association's primary bodies, the Governing Board and the General Assembly. Science Europe is fully funded by its members.

---

### Criteria for Membership

Member organisations should:

- Have substantial and significant impact on their national research system and budget.
- Be primarily funded through national public funding.
- Have substantial operating independence from their national government.

Promotes science, higher education, and technological development in Croatia to ensure economic development.

**RESEARCH FUNDING ORGANISATION**

## Czech Republic

### GACR

Czech Science Foundation

*Grantová agentura České republiky*

Supports basic research in the Czech Republic and promotes international research collaboration.

**RESEARCH FUNDING ORGANISATION**

## Denmark

### DFF

Independent Research Fund Denmark

*Danmarks Frie Forskningsfond*

Supports and promotes the most original ideas and initiatives within Danish research.

**RESEARCH FUNDING ORGANISATION**

### DG

Danish National Research Foundation

*Danmarks Grundforskningsfond*

Funds frontline, curiosity-driven research of the highest quality across all scientific fields.

**RESEARCH FUNDING ORGANISATION**

## Estonia

### ETAg

Estonian Research Council

*Eesti Teadusagentuur*

Responsible for concentrating R&D funding and supporting researchers in Estonia.

**RESEARCH FUNDING ORGANISATION**

## Finland

### AKA

Academy of Finland

*Suomen Akatemia/Finlands Akademi*

Funds high-quality scientific research in Finland and provides expertise in science and science policy.

**RESEARCH FUNDING ORGANISATION**

## France

### ANR

French National Research Agency

*Agence Nationale de la Recherche*

Tasked with funding project-based scientific research and stimulating innovation by promoting collaborative multidisciplinary projects.

**RESEARCH FUNDING ORGANISATION**

## Germany

### DFG

German Research Foundation

*Deutsche Forschungsgemeinschaft*

The self-governing organisation for science and research in Germany, serving all branches of science and the humanities.

**RESEARCH FUNDING ORGANISATION**

## Hungary

### ELKH

Eötvös Loránd Research Network

*Eötvös Loránd Kutatási Hálózat*

Driven to explore and dedicated to promoting scientific research excellence; ELKH conducts basic and applied research in natural & life sciences, social sciences & the humanities.

**RESEARCH PERFORMING ORGANISATION**

## MTA

Hungarian Academy of Sciences

*Magyar Tudományos Akadémia*

MTA represents the Hungarian scientific community at the EU and international level, guards the nation's scientific and cultural heritage, and supports the advancement of scientific research in Hungary.

**Science Europe AISBL, Rue de la Science 14, 1040 Brussels, Belgium**

Science Europe is the association representing major public organisations that fund or perform excellent, ground-breaking research in Europe.

We bring together the expertise of some of the largest and best-known research organisations in the world to jointly push the frontiers of how scientific research is produced and delivers benefits to society.

We advocate science and the scientific community to help build the European Research Area and shape the global scientific agenda.

More information on our mission and activities is provided at [www.scienceeurope.org](http://www.scienceeurope.org)
